

WORDSWORTH CLASSICS

She

H. RIDER HAGGARD

She is an exotic story of haunting power which delves into the hidden corners of mythology to amplify a thrilling tale of adventure as Cambridge bachelor don – Ludwig Horace Holly – and his companion embark on a dangerous quest to darkest Africa and encounter the terrible but attractive white Queen Ayesha – ‘She-Who-Must-Be-Obeyed’ – in her domain, the mysterious underground tombs of Kôr.

Sir Henry Rider Haggard wrote *She* immediately following the sensational overnight success of *King Solomon's Mines* and it has remained one of his best-loved books ever since.
